

### Science

Year 3 have enjoyed investigating how shadows are formed and how they change in their Science topic. They enjoyed learning new vocabulary whilst testing which materials create shadows. They used words such as transparent, opaque and translucent.

### World Book Day

Year 3 loved dressing up as their favourite book characters for World Book Day! They loved all the fun activities they participated in during the week including quizzes, bingos, role plays and drawing competitions. It was lovely to see all the children showing enthusiasm for reading and books!

### Computing

Year 3 have really enjoyed using different programs on their ipads to take and edit pictures. They did well to develop their editing skills to improve and change their picture quality. They used tools such as the crop tool and blur tool and even added additional features using filters, stickers and text.

### Music

Year 3 have had lots of fun learning how to play the Glockenspiel in music. They have enjoyed improving their rhythm and learning different songs.

## Highlights from Spring term for Year 3!

### Other fun things year 3 have enjoyed!

Showing support for Ukraine!

Learning about measurement in maths!

Learning our numbers in Spanish!
