

# Year 4

Year 4 learnt lots of interesting facts during their sound topic in Science. They explored how sound causes vibrations which can travel through liquids.

Year 4 have been enjoying their Communion sessions with Father Conor and Deacon Ronnie this half term to help them to prepare for their Reconciliation and First Holy Communion. The children had great fun completing the treasure hunt in church to help learn more about our wonderful St Matthew's church and parish.

It took a lot of hard work and some very muddy hands but the children thoroughly enjoyed their gardening sessions. The children will be doing their own gardens in no time!

Year 4 have been practising their debugging skills and learning about e-safety in their computing lessons.

The children have been raising money for Ukraine during Lent. We have had lemonade sales and movie afternoons.

Year 4 have been developing their problem solving skills through a range of challenges during their outdoor adventure activities topic in their pe lessons.

Next half term we will be reading stories in imaginary worlds, we will be learning about new life and building bridges in Re and we will be making our First Holy Communion.

Wow what a busy term we have ahead!
