|  | Reception 2023-24 |
| :---: | :---: |
| Autumn 1 | Number <br> Children count reliably with numbers from 1 to 5 <br> - Count reliably with numbers from 1 to 5 <br> -Recognise some numerals of personal significance. <br> - Recognise numerals 1 to 5 . <br> - Count up to three or four objects by saying one number name for each item. <br> - Count actions or objects which cannot be moved. <br> - Select the correct numeral to represent 1 to 5 objects. <br> - Count an irregular arrangement of up to 5 objects. <br> - Subitise up to 5 <br> Shape, Space and Measure <br> - Begin to use mathematical names for 'flat' 2D shapes (circle and triangle), and mathematical terms to describe the shapes. <br> - Select a particular named shape |
| Autumn 2 | Number <br> Place them in order and say which number is one more or one less than a given number. <br> Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. <br> - Use the language of 'more' and 'fewer' to compare two sets of objects. <br> - Find one more or one less from a group of up to five objects. <br> - Say the number that is one more or one less than a given number within 5. <br> - Count actions or objects which cannot be moved. <br> Shape, Space and Measure <br> Explore characteristics of everyday objects and shapes and use mathematical language to describe them. Recognise, create and describe patterns. <br> - Begin to use mathematical names for 'flat' 2D shapes (rectangle and square), and mathematical terms to describe shapes. <br> - Select a particular named shape <br> - Use familiar objects and common shapes to create and recreate patterns and build models. <br> - Begin to use everyday language related to time. <br> - Order and sequences familiar events. |
| Spring 1 | Number <br> Children count reliably with numbers from 1 to 10 <br> - Recognise numerals 1 to 10. <br> - Count out up to 10 objects from a larger group. <br> - Count actions or objects which cannot be moved. <br> - Select the correct numeral to represent 1 to 10 objects. <br> - Count objects to 10. <br> - Count an irregular arrangement of up to 10 objects. <br> - Find the total number of items in two groups by counting all of them. <br> - In practical activities and discussion, begin to use the vocabulary involved in adding and subtracting. |

| Shape, Space and Measure |
| :--- | :--- |
| Children use everyday language to talk about size, weight and capacity to |
| compare quantities and objects and to solve problems. |
| - Order two or three items by length or height. |
| •Order two items by weight or capacity. |
